25X1C

* This is the first report on the volume of rail traffic across the Scheune border crossing point based on documentary evidence. On the German side of the border the Pasewalk (N 54/Q 16) - Grambow (O 54/Q 34) and the Angermuende (N 54/Q 20) - Tantow (O 54/Q 43) lines, both of them single track, lead to the border crossing point. This explains the break-down of the rail traffic as made in the tabulation.
